## SCR grip whole northern region of India.

## PRINCIPLE INVESTIGATORS FOR VARIOUS THERAPEUTIC AREAS

We have extensive database of experienced and trained investigators across all therapeutic areas and it is continuously increasing

## SCR ACHIEVEMENTS

- One of the sites provided by SCR for a Phase IV study on SEVERE SYSTEMIC INFECTION having stringent inclusion/exclusion criteria was successfully enrolled 43 patients out of 45 within time limit. This SCR site has been awarded by global highest recruiting site for this study.
- Sites managed by SCR and SCR make executive sites for conducting various upcoming/ongoing studies to prevent many drawbacks during the studies.
- SCR team also coordinates and supports naive sites and PIs which are enthusiastic for clinical & medical research.
- SCR site enrolled 3 patients of breast/colon cancer within a rescue time period of two months.

*A symbol of new dimension in clinical health services*

## SCR TEAMS

- SCR fulfills the need for a qualified team of clinical trial site management professionals who understand the intricacies of participating in global research projects for conducting phase I – IV clinical trials.
- Our site coordinators have a strong personal ethics, clinical competency, people skills, patience and flexibility.

**“SCR work as a Clinical Research & Management Organization (CRMO) that provides clinical research & biomedical services to the biotechnology, Medical device and pharmaceutical Industries.”**
